## IV/3 CONFERENCE: UNEMPLOYMENT AMONG YOUNG PEOPLE IN REPUBLIC OF MACEDONIA/ PARTNER PROJECT

Basic info about the project		
Date:	23.11. 2016	
Organizer:	Fridrich Ebert foundation, office Skopje in collaboration with Youth Alliance - Krusevo Institute for Sociological, Political and Juridical Research	
Main objective		
Presentation of results of the study "Unemployment among young people in Macedonia"		
Project summary		

The need for discussion about this topic, as it is written in the study "Unemployment among young people in Macedonia", conducted by the Friedrich Ebert Foundation, is that the world is facing a major crisis in terms of youth unemployment. Developed countries and developing countries are faced with the challenge of creating decent and sustainable jobs for a huge group of young people each year entering in the labor market. Of course, it is known that the failure to integrate young people into the world of work has broader implications for the future prosperity and development of the countries. The youth unemployment and the situations in which young people are discouraged and give up their search for work, or accept to work under inadequate working conditions, undoubtedly provokes a loss for the economy, for the community and for young people themselves.
